

FIRST AID AND MEDICINES POLICY

Introduction

The Queen's School is committed to following best practice in dealing with cases of illness and in administering first aid. Our aim is to have in place effective management systems to support individual pupils, staff and visitors with medical needs and to ensure that the school meets its statutory duties towards members of the school community and visitors to the school. This policy also covers the Early Years Foundation Stage pupils in this school.

Our aim is to:

- ensure that all relevant staff are aware of girls' medical conditions and needs.
- provide the three day first aid training with annual updates for members of staff in key areas of the school.
- consider providing first aid training as requested by other members of staff.
- provide suitable medical facilities for the care of our pupils
- have in place easily accessible and up to date first aid containers.
- have in place detailed procedures for dealing with illness and minor/ major accidents which meet the Health and Safety Executive requirements.
- have in place procedures regarding basic hygiene and infection control.
- provide detailed guidance on the administration of prescribed medicines for pupils in the form of personal healthcare plans.
- provide basic First Aid Information as part of the curriculum.

Statement

The Queen's School is committed to following best practice in dealing with cases of illness and in administering first aid.

Personnel

- Wherever possible, first aid should always be administered by a trained first aider.
- Ideally staff should only administer first aid with another person present.
- The following staff have been trained in accordance with standards set by the Health and Safety Executive and hold a current First Aid at Work certificate. They will attend refresher training courses annually. This number is in excess of suggested minimum guidelines. More staff will undertake training as part of an ongoing programme to provide the best possible cover.

FIRST AID AND MEDICINES POLICY

First Aiders

A list of appropriately trained first aiders is maintained and updated regularly by the Health & Safety Officer, and is available in the main school office at both sites.

Equipment and facilities

A medical room is provided for the care of pupils. At the Senior School this contains a washbasin and WC and three beds. At the Lower School this contains a washbasin and one bed. Bed linen is changed on a regular basis.

First Aid Containers:

First aid material is held at various locations throughout the school as follows:

Location – Senior School	Position	Quantity	Check
Main Kitchen	Cupboard	1	General Services Manager
Little Kitchen	Cupboard	1	Mrs Smietana
Domestic Room	Cupboard	1	Mrs Smietana
Staffroom	Wall	1	Miss Herbert
Medical Room	Top of cupboard	4 bags	Miss Herbert
Main Office	Under reception window	1	Miss Herbert
N5	Wall behind door	1	Mrs D Evans
S1	On bench at back	1	Mrs Powell
S2	On side bench	1	Mrs Powell
S3	Wall	1	Mrs Powell
S4	Wall	1	Mrs Powell
S5	Wall	1	Mrs Powell
S6	Wall	1	Mrs Powell
S7	On bookcase at back	1	Mrs Powell
Gym	Office	4 bags	Head of Sport & Fitness
Pavilion		1	Head of Sport & Fitness
Minibus		1	Mr P Nicholls/Mr A James
Location – Lower School	Position	Quantity	Check
Main Office	First Aid Room	1 bag	Mrs Hardy
Kitchen	Cupboard	1 bag	General Services Manager
Workshop	Cupboard	1 bag	Mr M Chambers
HoneyBee house	Main Classrooms	1 bag	Mrs Hardy
Sandford House	Y1 classrooms Annex	1 bag	Mrs Hardy
Sandford House	Ground Floor Entrance	1 bag	Mrs Hardy
Sci-Tech Room	Main classroom	1 bag	Mrs Hardy
Nedham House	Y6 Landing Area	1 bag	Mrs Hardy
Nedham House	Main Hall	1 bag	Mrs Hardy
Swimming Pool	Pool Side	1 bag	Mrs Hardy
Pumpkin House	Main Classrooms	1 bag	Mrs Hardy

FIRST AID AND MEDICINES POLICY

Containers are checked regularly by the above appointed person and restocked as soon as possible after use. Staff are advised to report usage of materials to Mrs Humphreys at Senior School and Mrs Hardy at Lower School. They will order new stock when necessary.

Defibrillator	Senior School Main Office	Mrs Powell
Defibrillator	Lower School Main Office	Mrs Hardy

Procedure in the event of illness/minor injury

If a pupil feels unwell or requires first aid, she should report to the school office where a trained first aider will be available. The first aider will assess the situation and decide on the appropriate course of action:

- Should the pupil be unwell, they may be sent to the medical room for a period of time, until they feel either well enough to return to lessons or require a parent to be contacted to collect them. At the Senior School, electronic wristbands will be issued to pupils in the event that they may need to contact the office at any time during their stay and office staff will monitor on a regular basis.
- Visits to the medical room will be entered into the record book with details of the illness, and the time the pupil entered and left the room.
- Should a pupil require paracetamol the reason, dosage and time dispensed will also be recorded in the medical room record book.
- Once a week, details of the above will be entered onto pupils' PASS record by a member of the office staff.
- If a pupil has had an accident, following the appropriate treatment, details will be recorded on an accident form, which is seen and signed by the Headmistress and then sent to the health and safety officer for the appropriate action to be taken. Accident reports are shared with the Audit and Risk Committee of the Governing body once per term.

Procedure in the event of major injury/illness

In the event of an accident taking place the following procedure should be implemented:

- A first aider should be called to attend the scene of the accident or, if possible, the casualty is taken to the first aider.
- A member of staff must accompany injured pupils/staff who are sent to hospital. Casualties must not be sent to hospital unaccompanied.
- A parent or guardian must be contacted and asked to attend.
- In an emergency situation, when the casualty is conscious and mobile, it might be necessary to use a staff member's own car to take the pupil to hospital. The member of

FIRST AID AND MEDICINES POLICY

staff must always be accompanied by another adult and will be appropriately insured. In all emergencies an ambulance will be called.

- All accidents to staff, pupils or visitors must be recorded on the appropriate accident forms which are located in the school office.
- Full details about procedures to be followed are to be found with the relevant forms.
- These forms must be signed by a member of staff.
- Completed forms are filed in the school office and a copy sent to the Health and Safety Officer.
- Some accidents and incidents need to be reported to the Health and Safety Executive as a requirement of the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR). For these types of accidents see table below:

Injured person	Nature of injury
Pupils, students, visitors (non-employees)	<ul style="list-style-type: none"> • Fatality • Non-employee taken directly to hospital (whether by ambulance, car or any other means) if treatment given
Employees (all staff, including temporary or agency staff and contractors)	<ul style="list-style-type: none"> • Fatality • Major injuries (broken bones, dislocations, loss of consciousness) • Injury that requires more than seven days of absence from the normal work activity

For full details, see HSE publication *Reporting school accidents* (in school office with accident forms).

- To report such an accident, contact the Incident Contact Centre (0845 3009923) at Caerphilly Business Park, Caerphilly, CF83 3GG or visit www.riddor.gov.uk
- Should an accident take place involving staff or pupils on a school visit the school must be informed as soon as is practicable.
- Major concerns arising from an accident will be discussed at the termly Health and Safety Committee meeting, which reports to the governors' Audit and Risk Management committee.

Note:- The Health & Safety (First Aid) Regulations 1981 requires the nomination of 'appointed persons' to "take charge of the situation relating to an injured or ill employee or pupil requiring help from a nurse or medical practitioner".

All members of the school staff are considered to be 'appointed persons' within the meaning of the Act.

FIRST AID AND MEDICINES POLICY

Hygiene/infection control

Basic hygiene procedures must be followed and precautions taken to avoid infection. When dealing with blood or other body fluids, disposable gloves must be worn. These are available in the first aid containers. Dressings or equipment must be disposed of in sealed plastic bags. Please also refer to the Lower School Hygiene and Intimate Care policies.

Pupils with medical conditions

All teaching staff will be given a list of pupils with particular medical needs together with procedures to be followed in the case of an emergency. Information is also available on the school's information management system (PASS/3Sys) and lists of pupils with specific medical conditions are available in the office and staff rooms. Individual health care plans are completed and reviewed annually.

Administration of medicines

- No pupil under 16 will be given medication without parental consent.
- Medication should only be taken in school when absolutely necessary and it is helpful if dose frequencies can be arranged for this to take place out of school hours.
- Following the completion of a health care plan, at the discretion of parents, Senior School pupils are allowed to have their own medication and inhalers with them for use if necessary.
- If required, medicine brought to school may be stored in the school office and may be administered by the pupil or a first aider if appropriate. Following instructions given in the care plan, permission must be provided by the parent. Non-prescribed medicines may also be stored in the school office following completion by parents of the appropriate consent and guidance form. In the Lower School, all medication is stored in the Lower School Office.
- All staff receive training in the use of EpiPens. EpiPens will be stored in the school office. Any pupil who may need the use of an EpiPen should carry one with them. If necessary, trained staff will administer such medication in an emergency, and ensure an ambulance is called.
- A record is kept of all medicines administered to any pupil
- Staff will follow advice given on the NHS website about administering paracetamol and ibuprofen together.

'You should not give your child both medicines at the same time (unless directed to do so by a qualified healthcare professional). If you feel that your child needs more than one type of painkiller, contact your GP for advice. If your GP advises using both medicines, they will tell you how to do this, including what dose to use and how often to give it to your child.'

FIRST AID AND MEDICINES POLICY

Off-site activities

Adequate and appropriate first aid provision will form part of the arrangements for all out-of-school activities. Travelling first aid containers are located in the medical room and the gym.

Pupil education

A speaker from St John Ambulance visits the school each year to inform pupils in Year 9 about first aid procedures as part of their PSHE curriculum. Year 12 pupils can opt in to take qualifications in First Aid or Paediatric First Aid as part of the QUEST co-curricular programme.

A first aid extra-curricular club (called Badgers) runs at The Lower School.

FIRST AID AND MEDICINES POLICY

Appendix

EYFS: Administration of Medicines

In accordance with EYFS Statutory Framework for the EYFS 2014 we follow the recommended guidance regarding administering medicine to children: *“Medicine (both prescription and non-prescription) must only be administered to a child where written permission for that particular medicine has been obtained from the child’s parent and/or carer. Providers must keep a written record each time a medicine is administered to a child, and inform the child’s parents and/or carers on the same day, or as soon as reasonably practicable.”*

Medicine can only be administered in school if:

- It is brought in the original packaging and handed into the office.
- Written permission for each and every medication, from the child’s parent/guardian, must be received by the school.
- prescription medicines should not be administered unless prescribed by a doctor/dentist/nurse/pharmacist.

Storage of medicine

Medicines that require refrigeration must always be stored in the refrigerator. The refrigerator is located in a room that is separate to the medical room. All other medicines are stored in a locked cupboard near the medical room.

Period of absence

1. If a child has suffered from an infectious/contagious illness a period of 48 hours must elapse before that child returns to school.
2. When no infectious or contagious illness is prevalent it is still advisable for children to stay at home for 24 hours from the start of a course of antibiotics, so that the treatment has started to have some effect.

Paediatric First Aid

The school conforms to the requirements of EYFS regulations and has provided suitably qualified Paediatric first aid cover for EYFS pupils.

Safeguarding

In the event of an EYFS pupil sustaining significant injury, bruising or any other cause for concern both within school and without, the designated lead for child protection in the Lower School will be informed and will take appropriate action in accordance with the Safeguarding Policy.
